

## EES with HIV and without Fertility Specialty Drug List January 2024

Medications listed below are covered under the **PrudentRx** Program

Brand-name drugs are **capitalized** (e.g., SANDOSTATIN) and generic drugs are listed in lower case (e.g., octreotide acetate).

*Please note: If you are a plan member, please call 1-800-578-4403 and a customer service advocate will be available to answer any questions and enroll you in the program. Representatives are available Monday through Friday from 8 a.m. to 8 p.m. ET*

Medications on the PrudentRx specialty drug list may change at any time, with or without notice. Your plan may not cover certain medications even though they appear on the PrudentRx drug list. Payments made on your behalf for the medication on this list, including amounts paid by a manufacturer's copay assistance program, will not count toward your plan deductible or out-of-pocket maximum (if any), unless otherwise required by law.

<sup>1</sup>Payments made by you for a medication that does not qualify as an "essential health benefit" under the Affordable Care Act (ACA), will not count toward your deductible or out-of-pocket maximum (if any), unless otherwise required by law. If you are enrolled in a high-deductible health plan with a health savings account, payments made by you for medications covered by your plan will count toward your deductible.

\*If enrolled in a high-deductible health plan (HDHP) with a health savings account (HSA) these medications are not included in the PrudentRx program drug list. For all other plans, continue to fill these medications through approved pharmacy.

Medications on the PrudentRx specialty drug list may change at any time, with or without notice. Your plan may not cover certain medications even though they appear on the PrudentRx drug list. Payments made on your behalf for the medication on this list, including amounts paid by a manufacturer's copay assistance program, will not count toward your plan deductible or out-of-pocket maximum (if any), unless otherwise required by law.

<sup>1</sup>Payments made by you for a medication that does not qualify as an "essential health benefit" under the Affordable Care Act (ACA), will not count toward your deductible or out-of-pocket maximum (if any), unless otherwise required by law. If you are enrolled in a high-deductible health plan with a health savings account, payments made by you for medications covered by your plan will count toward your deductible.

\*If enrolled in a high-deductible health plan (HDHP) with a health savings account (HSA) these medications are not included in the PrudentRx program drug list. For all other plans, continue to fill these medications through approved pharmacy.
