Your vision benefits at a glance

Vision benefits help make it easier and more affordable to care for your eyes. Regular vision exams can identify potential issues earlier, such as cataracts and glaucoma, when they're easier to treat.

Routine eye care can also help protect your overall health. Eye doctors are often the first to find signs of certain issues such as diabetes, high blood pressure, and high cholesterol¹ — all through an eye exam.

Flexibility and choice

Anthem Blue View Vision offers you one of the largest vision care networks in the country.² You have the flexibility to choose where you receive eye care and eyewear. You can even buy eyewear at a location that's different from your eye doctor's.

More doctors and locations

You can go to an independent eye doctor in your plan's network, or you can go to a variety of popular regional and national stores such as LensCrafters®, Pearle Vision®, and Target Optical®. Many of these stores have evening and weekend hours, so you can go at the best time for you.

Lower costs

We want you to be able to access eye care and buy eyewear when you need it, at a price that's more affordable. Choosing an independent eye doctor or optical retail store in your plan's network helps you save money. You can also include the following options at no extra cost:

- Factory scratch coating on standard eyeglass lenses
- UV-blocking Transitions® lenses for covered dependents under age 19
- Impact-resistant polycarbonate lenses for covered dependents under age 19

Online convenience

You also have access to online retailers 24/7, including Glasses.com, ContactsDirect, and 1-800 CONTACTS.

Other plan benefits and discounts

- 40% off extra pairs of glasses anytime, from any eye doctor or store in your plan's network
- High-quality progressive lenses and anti-reflective coatings at different price levels, so you can control how much you spend
- Negotiated savings on popular lens options and treatments
- 20% off upgrades, accessories, and nonprescription sunglasses
- 20% off the balance if you buy eyeglass frames that cost more than your benefit allowance
- 15% off the balance if you buy conventional contact lenses that cost more than your allowance
